+1 (925) 733-7330 | stevew2@illinois.edu | stevewong-a.github.io/Portfolio-Website/ |
linkedin.com/in/steveawong | https://github.com/SteveWong-a

Product-focused developer and designer with a strong foundation in building and deploying user-centered web applications. Highly proficient in leveraging AI tools to accelerate rapid prototyping, UI design, and front-end development.

EDUCATION

- **University of Illinois Urbana-Champaign (UIUC), Urbana, IL**
    - B.S. in Computer Science (Grainger College of Engineering) | Expected Graduation: May 2030
- **Dougherty Valley High School**, San Ramon, CA - High School Diploma: June 2026
- Diablo Valley College Dual Enrollment
- Compton College Dual Enrollment

SKILLS

- UI/UX Design, Figma
- Data Analysis and Machine Learning
- Python, Java, C++, HTML, CSS, JavaScript
- AI-Assisted Design: ChatGPT, Claude, Gemini

SHIPPED PRODUCTS

Swim Timer Split Web Application

- Designed, developed, and deployed a live web-based swimming application utilized by local swim coaches to track and record concurrent lap split times for multiple athletes.
- Engineered a clean, user-friendly interface to solve complex real-time data entry constraints, ensuring seamless usability during busy, fast-paced competitive events.

Hydrio | AI-Powered Web Application | https://water-drinking-reminder-933bf.web.app/

- Designed and deployed an AI-powered hydration tracking website, managing the end-to-end product lifecycle from initial UI mockup to live front-end deployment.
- Utilized AI tools as a digital pair programmer to rapidly iterate on page layouts, generate visual assets, and accelerate the shipment of the final visual product.

PROFESSIONAL EXPERIENCES

Readyfly | Data Analyst Intern (November 2023 – Present)

- Designed and implemented data visualization interfaces utilizing Python
- Translated complex datasets into highly readable, user-friendly formats for an AI Job report
- Developed intuitive database schemas and structured queries, improving the internal team's ability to organize and retrieve job listing data

DIYA (Data Inspired Young Analysts) Research | Data Researcher (June 2024 - August 2024)

- Collaborated with a team to analyze a large dataset, focusing on identifying trustworthy borrowers without credit history using machine learning.
- Engineered clear data visualizations to communicate complex machine learning insights regarding loan reliability, bridging the gap between raw data and accessible user reporting

ACTIVITIES

- **Webmaster & Former Senior Patrol Leader |** *Boy Scouts Troop 2001*
- **Creator & Designer** | *School Traffic Blog* | https://steveawong.wixsite.com/transform-transport
- **Founder & Organizer |** *Computer Vision Boot Camps*
